INTRODUCTION

2024

The INTEX family of companies is dedicated to developing and manufacturing the highest quality products that not only provide the best value in price, but are innovative, fun and exciting. The 100+ independently owned and locally operated companies that make up the INTEX Family all embrace this commitment to quality, service and price while working together to ensure the satisfaction of the families and individuals in countries across the globe who enjoy these products. This has become the hallmark of INTEX around the world.

INTEX is committed to delivering top quality products at a great value. Our Airbed line is unmatched for breadth and beauty. With our innovative, patented Fiber-Tech™ Technology, we have engineered a way to combine durability with exceptional comfort, creating airbeds that rival the stability, support and comfort of a traditional mattress.

Our Comfort Rest® line of airbeds is designed to meet all your customers' needs. The "Dura-Beam® Standard Series" offers durable and comfortable airbeds at an attractive price point. The "Dura-Beam® Plus Series" offers premium quality raised airbeds in a variety of styles. The "Dura-Beam® Deluxe Series" features luxurious raised airbeds with enhanced sleeping surfaces. Our "PremAire® Airbeds" are elegantly designed with puncture-resistant material and a plushy pillow top for added comfort. We also offer the TruAire Outdoor and TruAire Home airbed series made from TPU material for exceptional durability and comfort. Our "Camping" series mats are perfect for travel or outdoor use, and our "Air Furniture" series comes in bright colors and fresh designs for young adults.

Ask your INTEX representative for any of our product catalogs – we are confident that you will agree that INTEX's product line is unmatched in meeting your needs.

Commitment to Excellence

INTEX is committed to delivering the highest quality products that meet or exceed the expectations of our customers. Our vision is to be the most recognizable, trusted and innovative company in our industry.

We understand that product safety is essential to upholding our consumers’ trust and expectations. That’s why we keep quality and safety in mind with every product we produce. In addition to meeting all safety and quality regulations and standards, we set our own rigorous standards and challenge ourselves to continuously improve and exceed them.

Examples of regulations and standards we conform to include:

- Regulation (EC) No.1907/2006 “Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)”
- Regulation (EU) No. 2011/65 “Restriction of the use of certain Hazardous Substances in electrical and electronic equipment (RoHS)”
- Regulation (EU) No. 2012/19 “Waste Electrical and Electronic Equipment (WEEE)”
- EN 60335-1: Safety of household and similar electrical appliances —General requirements
- ASTM F2755: Standard Safety Specification for Cautionary Labeling of Inflatable Air Mattresses
- UL1450 “Electric inflators” (USA standard for electric inflators)

INTEX’s commitment to excellence extends to helping our environment and keeping sustainability in mind through every step of the manufacturing process. Our manufacturing waste repurposing program prevents used materials and scraps from going to landfills and instead they are re-used in the manufacturing process where up to 10% of annually produced PVC is recycled.

INTEX designs all of our own packaging for our products. We constantly challenge our methods of packaging to improve efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization, saving freight and fuel consumption. As a manufacturer, INTEX knows it has a responsibility to manage the amount of waste produced. As an employer of over

ten thousand people, we also encourage our own employees to recycle, reduce waste, and be conscious of the environment. INTEX has made significant investment in technology to reduce energy consumption. For example, we have implemented a frequency converter system which converts diesel to natural gas, installed solar water heaters and set up a recycled sewage system, and invested in equipment that reduces gas emissions.

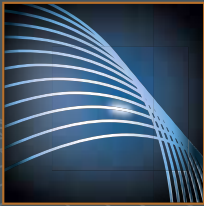

From product design, to more efficient processes that save energy and reduce waste, to more energy efficient offices, the people at INTEX are striving to provide the best value products anywhere while constantly improving our sustainability efforts.

INNOVATIVE FIBER-TECH™ TECHNOLOGY by INTEX®

An Incredible Night's Sleep Starts With a Single Thread...

more durable

more supportive

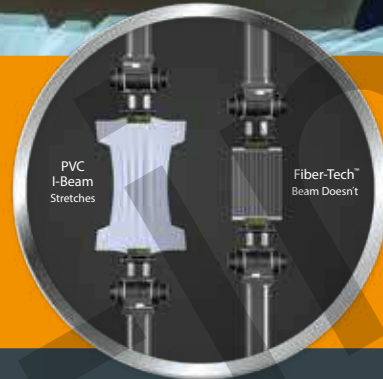

lighter

...than a traditional airbed

FIBER-TECH™ TECHNOLOGY

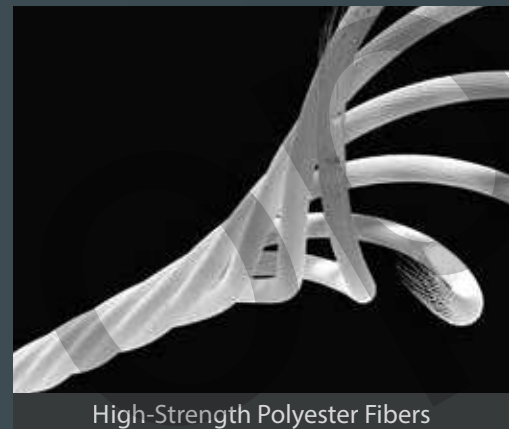

Standard interior construction has been enhanced with lightweight, high-strength fibers for amazing durability and comfort!

U.S. Patent No. 8,562,773 / U.S. Patent No. 9,156,203
/ U.S. Patent No. 9,802,359

Designed for Comfort Engineered for Durability

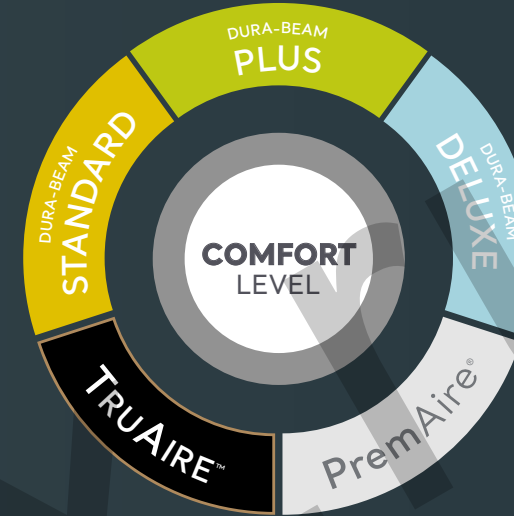

Our innovative, patented Fiber-Tech™ Technology airbeds are comprised of thousands of high-strength polyester fibers. Unlike traditional airbed construction, these high-strength polyester fibers do not stretch over time, resulting in amazing durability for years of lasting comfort. Fiber-Tech™ interior construction provides the ideal firmness for superb support and rejuvenating sleep.

High-Strength Polyester Fibers

Fiber-Tech™ Interior Construction

FIND YOUR PERFECT COMFORT

DURA-BEAM® PLUS SERIES

ELEVATE YOUR SLEEP EXPERIENCE

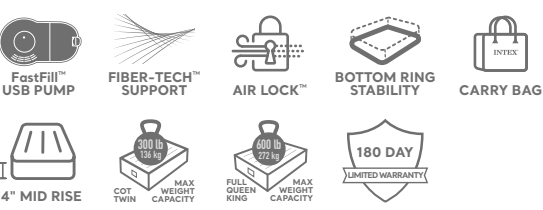

Thoughtful touches and elegant design mean Dura-Beam® Plus airbeds take comfort to another level. Plush, elevated sleeping surfaces range in height from 14" to 20". Rest upon the superior support and stability offered by the combination of enhanced edge construction and our patented Fiber-Tech™ interior. These full-featured airbeds boast a powerful internal pump for quick and easy inflation and deflation.

MID-RISE COMFORT

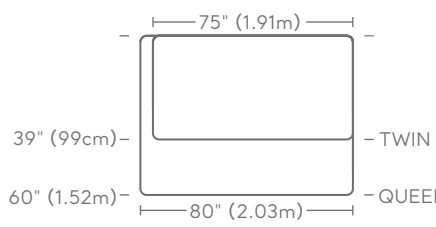

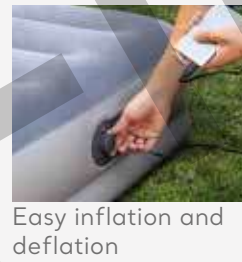

AIR MATTRESS WITH FASTFILL™ USB PUMP

Perfect for both indoor or outdoor use, this raised 14" bed with light weight and energy efficient built-in USB pump is convenient and versatile. The unique bottom ring construction provides superior stability, and the soft, velvety sleeping surface ensures a good night's sleep.

ELEVATED WITH INTERNAL PUMP

- Fiber-Tech™ Technology
- Mattress is raised 14" (36cm) from the floor for convenience
- Unique bottom ring construction provides superior stability
- Powerful built-in USB pump for quick and easy inflation and deflation
- Powered by any 5V USB power source rated 2 Amp and higher, including smartphone chargers, 12V USB car chargers, or portable power banks

DELUXE PILLOW REST

RAISED AIR MATTRESS

The 16½" raised height provides easy accessibility and a closer feel to traditional mattresses. The soft, velvety sleeping surface and the built-in pillow provide extra comfort, while the powerful internal pump allows for easy inflation and deflation.

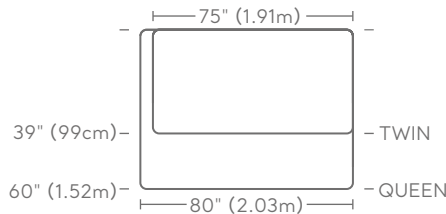

ELEVATED WITH INTERNAL PUMP

- Fiber-Tech™ Technology
- Mattress is raised 16½" (42cm) from the floor for convenience
- Built-in pillow for added comfort
- Unique edge construction provides superior stability
- Powerful internal pump for rapid inflation and deflation

QuickFill® Plus Internal Pump
